Acorns

California

Dear Hiring Manager,

I am writing to express my enthusiasm for the Software Engineering Intern position at Acorns, as advertised. As an aspiring software developer with a deep love for problem-solving, I am driven by a desire to learn and grow in the tech field. With my strong foundation in JavaScript, and my ongoing journey into Python automation, I believe I would be a valuable addition to your team.

Currently, I am pursuing my Bachelor's degree in software engineering, expecting to graduate in 2026. My curiosity and determination have cultivated my programming skills and enabled me to tackle challenges head-on. I love finding unconventional approaches to coding problems—whether it's through hands-on projects in JavaScript and React or using my creative side to innovate solutions.

The opportunity at Acorns excites me not only because of the technical skills I can offer but also because of my belief in the power of technology to effect positive societal change. I have always admired tech icons who have transformed everyday life through their innovative solutions, and I aspire to follow in their footsteps. My recent self-driven studies on how large language models are created showcase my hunger to learn new technologies and adapt to the ever-evolving landscape of software development.

Throughout this journey, I've focused on project-based learning, which I find to be the most effective way to grow my skills. For instance, I'm currently developing a folder-sorting app in Python to help organize downloads, which has fostered my analytical reasoning and problem-solving abilities.

Additionally, my proficiency with tools such as Git, VS Code, and Figma, combined with my excellent communication skills, prepares me to thrive in the dynamic environment at Acorns. I am eager to collaborate with your team to deliver game-changing products and contribute to projects that reflect my passion and commitment to my work.

Thank you for considering my application. I am excited about the opportunity to bring my creativity, determination, and optimism to the Acorns team. I look forward to the possibility of discussing how I can contribute to your mission.

Warm regards,

Bello Oluwanifemi Simeon-Peter
